To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OFF OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

Douglas vs. Johnson.

WHAT IS POPULAR SOVEREIGNTY?

LOOK ON THIS PICTURE.

I firmly and conscientiously believe that there is no *safety for the country, no hope for the preservation of the Union*, except by a faithful and rigid adherence to the doctrine of *non-intervention of Congress in the Territories*. INTERVENTION MEANS DISUNION. There is no difference in principle between Northern and Southern intervention. The one intervenes for slavery and the other against slavery, but each appeals to the passions and prejudices of his own section against the peace of the whole country and the right of self-government by the people of the territories; hence the *doctrine of non-intervention must be sustained at all hazards*; but while I can never sacrifice the principle, even to attain the Presidency, I will cheerfully and joyfully sacrifice myself to maintain the principle.—[Douglas' Letter to Richardson.

The ultra men in each section demand Congressional intervention with the subject in the Territories. They agree in respect to the power and duty of the Federal Government to control the question, and differ only as to the mode of exercising the power.—[Douglas' Serenade Spe'ch

AND NOW ON THIS.

That the citizens of the United States have an equal right to settle with *their property of any kind*, in the organised territories of the United States, and that under the decision of the Supreme Court of the United States in the case of Dred Scott, which we recognize as the correct exposition of the Constitution in this particular, *slave property stands upon the same footing as all other descriptions of property, and that neither the General Government* NOR ANY TERRITORIAL GOVERNMENT, *can destroy or impair the right to slave property* in the common Territories, any more than the right to any other description of property; that property, (I all kinds, slaves as well as any other species of property, in the Territories, stand upon the same equal and broad Constitutional basis, and subject to like principles of *recognition* and PROTECTION *in the* LEGISLATIVE, *judicial and executive department of the General Government*.—[H. V. Johnston's Reports in the Georgia Convention.]

Will some democrat who undertakes upon *principle* to support both of these candidates, tell us which of them is right.

MR. GALES AND THE NATIONAL INTELLIGENCER.—The Albany *Evening Journal* publishes the following anecdote: "The death of Mr. GALES revives a reminiscence of the only time his paper, the *National Intelligencer*, ever suspended publication. It was a warm and able advocate of the MADISON war policy, seconding the efforts of CLAY and his compeers, and so powerful was its influence that when Gen. ROSS, in command of the British troops, entered the capital after the unfortunate affair of Bladensburg, his first inquiry was not for the Capitol, the President's house, or the departments, but for the *National Intelligencer* office, and it was the first establishment demolished, causing a short cessation in its regular publication.—With this exception, the *National Intelligencer* has been published regularly for sixty years.

THE ITALIAN TRI-COLOR IN NEW YORK HARBOR.—The Italian tri-color was first hoisted in New York Harbor on Saturday, on the bark *Pejero*, which left Palermo on the 4th of April last. The event was celebrated in the most enthusiastic manner by the officers and crew of the vessel, and by distinguished Italian gentlemen of Brooklyn and vicinity. The bark was gaily decorated with the flags of different nations, and the 8th Regiment band enlivened the occasion with excellent music. A meeting was organized on the vessel, at which speeches were made by Prof. MAGINI, M. MINELLI, Dr. BATTAGLIO, M. DE HARO, M. COSTA, and other gentlemen. Of all of them, the heroism of GARIBALDI, and the bravery of his followers, were the theme.

REPUBLICAN FEELING IN NEW YORK.—The Republicans of Lockport held an unusually enthusiastic meeting on Thursday evening last. The occasion was the dedication of the Wigwam, and the reply of the Hon. JAMES O. PUTNAM to Ex Gov. HUNT. The Buffalo Wide-Awakes turned out with 150 torches and a full band, and went to Lockport on a special train, receiving the warmest demonstrations along the route.—When the Wigwam was crowded full, a meeting equally large was organized outside. No political excitement like that of Thursday night has been known in Lockport.

CARL SCHURZ AT PEKIN.—CARL SCHURZ addressed about one thousand Germans at Pekin, Illinois, on Friday afternoon last, and his effort was well repaid by voluntary confessions of a change of faith by more than a score of prominent German citizens. During his remarks he was cheered again and again by his enthusiastic countrymen. In the evening there was a grand torch light procession, followed by a meeting at the Wigwam, which was addressed in English by Mr. SCHURZ and HENRY GROVE, Esq.

POLITICAL JOURNALS IN ALABAMA.—The Montgomery (Alabama) *Advertiser*, having given a political classification of the papers in that State, says:

"It will be seen that Bell and Everett have nearly twice as many newspaper supporters in Alabama as Douglas, and that Breckinridge and Lane have six times as many papers as Douglas; nearly four times as many as Bell and Everett, and more than twice as many as Bell and Douglas combined."

MORE DEATHS FROM HEAT EXHAUSTION.—In addition to the eleven instances of fatal sunstroke recorded in our columns last Saturday, the mortuary report exhibits eight more as having previously occurred during the week—only two or three of which had been chronicled by the local press. To these nineteen cases, we have now to add the following.—*St. Louis Dem.*, 23d inst.

Here proceeds a frightful list of *twenty-nine* deaths from sun stroke, making in the space of a few days, forty-seven deaths. It has been hotter in St. Louis than in New Orleans. The thermometer has stood as high as 107 degrees in the shade.

BUFFALO COUNTY.—The Trempeleau *Representative* brings in the following census statistics of Buffalo County:

Population of Buffalo County	4,450
[illegible] Establishments	17
Capital Invested	$70,000

Divided as follows:

Breweries	[illegible]
Flour Mills	[illegible]

Republican Rally at West Bend—Washington County Awake!

For the Sentinel.

EDITORS SENTINEL:—The Republicans of Washington County met at the court house, in the village of West Bend, on Monday succeeding the great DOUGLAS fizzle (which was held on Saturday, the 14th of this month) for the purpose of ratifying the nomination of LINCOLN and HAMLIN for President and Vice President of the United States, and to refute and expose some of the Democratic lies which had been uttered by the Democracy.

The meeting was called for six P. M., but long before that hour wagon loads of "wide awake" Republicans, with the glorious stars and stripes floating gracefully over them, came pouring in, and rapidly filled up the Court House to its utmost extent. It is estimated that a much larger number was in attendance than at the recent meeting of the unterrified.

On motion, WM. SMITH was appointed President and Mr. GILSON Secretary.

The first speaker called upon was MASON G. SMITH, Esq., of Milwaukee. Mr. S. entered into a general review of the public acts of STEPHEN A. DOUGLAS; visited him with some scathing rebukes for his hypocrisy on the Kansas question; spoke of the Tariff, and illustrated wherein the Republican party was capable of doing more for the general good of the country than any other political organization.

Mr. S. then went into a review of the position taken by the Democratic party on the subject of internal improvements, and showed by facts that the Democracy had been for internal improvements, when the South asked for appropriations, but when the North asked for anything, "Oh, it's unconstitutional!" During Mr. SMITH's speech he was frequently greeted with applause.

The next speaker was L. F. FRISBY, Esq. Mr. F. went at the "Little Joker" with "hammer and tongs"—took him to task for the barefaced lies which he had uttered at the meeting on the Saturday previous, and remarked that a school boy of ten ought to have known that half of LARRABEE's assertions were utterly false. In fact, Mr. F., gave the "Little Joker" a regular peeling.—The speaker then reviewed the general doctrines of the Republican party, and showed up democratic mismanagement and misrule in its proper light.

Mr. FRISBIE was followed by W. P. BARNES, of Barton, who cracked some excellent jokes at the expense of the Douglasites. Much credit is due Mr. BARNES for the efficient manner in which he notified the Republicans of Washington of the meeting. Take it all in all, this meeting may be considered quite a success for "Old Washington."

The people here are sanguine that the Democratic vote will be much reduced this Fall, and instead of the big majorities rolling in, Washington will show a small figure on the side of Dougl-ass-ism.

After the speech of Mr. BARNES, the meeting adjourned, and the hardy Republicans of Washington returned to their homes with their minds fully made up to do all in their power for the good cause at the coming election.

Success to Free Speech, Free Labor and Freedom everywhere, is their motto. A.

The Horse Fair at Kalamazoo.

The third annual exhibition of the Kalamazoo National Association for the improvement of the Breed of Horses, comes off, at Kalamazoo, Michigan, on the 11th, 12th, 13th and 14th of next month. The previous exhibitions of this Society have been very successful, and it is thought that the forthcoming one will be the best of all. Several thousand dollars in premiums are offered, and the number of competitors, already entered, is very large. Kalamazoo is one of the handsomest towns in Michigan, and the grounds of the Association are spacious and well-arranged. The following cordial invitation is extended to the Press:

TO THE PRESS.

The undersigned, Committee of the Press, appointed by the Kalamazoo Association for Improving the Breed of Horses, herewith extend a cordial invitation to their brethren of the Press throughout the Union, to be present during the ensuing exhibition of the Society, at this place, on the 11th, 12th, 13th and 14th of September next. They will endeavor, in every way, to extend the hospitalities of the fraternity, and every facility will be afforded for the enjoyment of the exhibition. A reporter's stand is set apart for the exclusive use of editors, and every aid for making early reports will be cheerfully given.

COMING TO WISCONSIN.—Mr. A. W. BISHOP, President of the Buffalo Young Men's Republican Club, is about to remove to this State. The Buffalo *Express* of Saturday last thus speaks of Mr. BISHOP:

"He goes to La Crosse to enter the law firm of Johnson & Cameron in that city, taking the place of Mr. Johnson, who lately deceased, and uniting in partnership with Angus Cameron, Esq., formerly of this city.—This firm, with the reputation and prestige of which Mr. Bishop now associates himself, has stood at the head of the legal profession in Western Wisconsin for several years; and it is therefore under the most flattering and favorable auspices that he enters the field of ambition which the Great West opens to the talented and energetic. In all material respects the movement which he intends to make is, without doubt, one highly advantageous, but this fact, pleasing as the consideration of it must be to his many friends, cannot much lessen their deep regret at his departure from their midst.

The many and important relations which Mr. Bishop has sustained in this community, cannot be severed without an unusual disturbance of feelings. The Young Men's Republican Club, over which he has presided since its organization, imparting to it, by his own energy, discreetness and ability, very much of the importance it has assumed as a political organization, cannot accept his resignation of the office without many unhappy feelings, both of a friendly and selfish nature. The Young Men's Association, of which he has been one of the most active and prominent members and officers, will lose him with no less regret. In other associations he will leave a vacancy not easily filled, and from our society at large his withdrawal will be felt as would that of a very few. It is safe to say that no young man in the city occupies a more prominent position, or is more universally esteemed than Mr. Bishop. We feel assured that he will speedily take the same rank, and win the same favor among the citizens of La Crosse; and we count upon his rising to eminence and distinction in the Western Country with the greatest confidence.

THE NEW PRESIDENT OF HARVARD.—At the recent dinner of the Alumni of Harvard College, this toast was given:

"*The Pulpit of the Great City*—It takes a good head, a brave heart, and a stirring voice to banish sleep from its cushioned seats. Our brother, Dr. Bellows, has them all, and we want to hear his voice among us."

The Dr. replied in a short speech, which he concluded by the following stanza, referring to the newly inaugurated President:

> Though winds do blow and waters flow,
> And envious clouds may pelt on—
> Her sacred crown, no floods can drown,
> While Harvard keeps her Felt-on.

THE LOST IN THE HUNGARIAN.—The Bangor Whig states that the company engaged in taking out goods from the wrecked steamer obtain from five to six hundred dollars' worth per day. The wreck is full of bodies, some of which can be seen at low water, and the sight is represented as extremely distressing.

Population of Milwaukee and Chicago.

The Chicago *Press and Tribune* concludes an article on the probable effect of the census upon the estimated populations of some of our western cities, as follows:

"Nor is it unlikely that the 75,000 so confidently proclaimed by Milwaukee may shrink into the neighborhood of 55,000, under the inexorable manipulation of the census-takers. Toledo, Detroit, Indianapolis, Dubuque, Davenport, Burlington, Keokuk and other Western cities, are all likely to suffer disappointment in result to their numerical greatness."

Undoubtedly. But Milwaukee never claimed to have 75,000 inhabitants, and, by referring to its own columns, a few months back, the *Press and Tribune* will see that our population was ascertained by the school census to be about 55,000. The present census, we think, will be more likely to show a falling off, than an increase, since that time, because the immense amount of agricultural work doing, and to be done, in the country, has drawn away several thousands of our laboring residents.

The causes that have retarded the growth of Western cities since 1857, are correctly stated by the *Press and Tribune*, viz: the prostration of commerce, brought about by repeated crop failures, the cessation of railroad building, and the great financial revulsion of that year. But these trying times are past; their effects are rapidly disappearing, and the West is again on its feet, ready for another vigorous start. If our western cities do not hereafter increase with the same speed that they did previous to 1857, their growth will be more healthy and substantial, because the agricultural resources of the country are every day becoming more fully developed, and with the prospect of a sound protective tariff on the incoming of a Republican Administration, HOME MANUFACTURES will soon begin to flourish in our midst.

A word as to the population of Chicago.—As the time for the completion of the census approaches, our neighbors begin to modify their confident estimates very materially.—Less than six months ago, on the occasion of the publication of a new city directory, the *Press and Tribune* asserted that "Chicago contained upwards of one hundred and fifty thousand souls," or words to the same purport. Already the same paper concedes that 120,000 will be the outside, and we think it highly probable that the "inexorable manipulation of the census-takers" may show the population of the self-styled "Metropolis of the West" not to exceed 100,000!! and we should be very loth to bet even on that.

HEAVY THUNDER STORM.—A heavy thunder storm passed over our city about two o'clock yesterday afternoon. The rain descended in torrents for a short time and the peals of thunder were the heaviest we have heard this year. The storm cooled the air deliciously and bountifully refreshed the thirsty earth.

GUN SHOP STRUCK BY LIGHTNING.—The gun shop of WILLIAM HAYWOOD, on West Water street, nearly opposite the Fountain House, was struck by lightning during the storm yesterday, and considerably shattered, but nobody was hurt. The electric fluid entered the building simultaneously in three different places, over the front door, at the south side of the shop window, breaking several lights of glass, and scorching the boards through which it forced an opening, and through a sky light in the roof, breaking the ceiling down in the centre of the shop. There were several workmen in the shop at the time, but further than being slightly stunned they received no injury.

STRUCK BY LIGHTNING.—During the heavy thunder storm, yesterday afternoon, the lightning struck the tall brick chimney at PFISTER's Tannery, Fifth Ward, and followed the conductor to the ground, doing no damage. At the foot of the chimney (which stands apart from the main building) there was an iron rod, some twenty or thirty feet long, which leant against the building. The lightning, after leaving the conductor, followed this rod and struck and set fire to the Tannery. Fortunately the mischief was discovered in season to prevent the spread of the flames.

MILWAUKEE.—If there is anything in our State, of which the inhabitants have reason to be proud, it is its commercial metropolis. There is hardly a city of its size, east or west, containing more capital, business talent and enterprise; or more costly and elegant residences and stores, than Milwaukee. And it is astonishing to see the amount of building now going on. The "burnt district," on East Water street, will soon be covered with elegant stores; and West Water street is rapidly advancing to rivalry with its more eastern namesake. And improvements are not confined to the business portions, but are going on in all parts of the city; and this season will add many to the costly residences as well as extensive stores.—*Kilbourn City Mirror.*

MUSICAL SOCIETY OPEN-AIR CONCERT.—An out-door Concert of the Musical Society comes off *this* evening, at the Bellevue Garden, on the Wauwatosa road. Members not in arrears free—others 25 cents. Omnibusses will carry passengers from Market Square, at 5 cents each. It will be a pleasant affair.—If the weather is unfavorable, the Concert will be postponed until the first fair evening.

SPLENDID WHEAT AND RYE.—A Wauwatosa Farmer left in our *sanctum* yesterday some heads of wheat and rye, plucked at random in his fields, which surpass anything we have seen this year. If it is a fair sample of the Wauwatosa crop, that fine town will be in funds this fall.

THE WOOD MINSTRELS TO-NIGHT.—The famous Wood Minstrels from New York make their first appearance at the Academy of Music *this* evening, and offer an excellent bill. They are unrivalled in their line, and cannot fail to satisfy public expectation.

State Teachers' Association.

Notice is hereby given to the teachers that contemplate attending the State Teachers' Association, to be held in Milwaukee, on the 1st of August next, that all the railroads leading from Milwaukee, will carry teachers, to and from the Association, at half-fare—*i. e.*, full fare on coming to the city, and return free.

The Association will hold its first session in the First Presbyterian Church, corner of Mason and Milwaukee streets, on Wednesday at 3 p. m., on the first floor. The Committee of Arrangements will be at the basement of the Church during the whole day, to assign persons, as they report themselves, places of entertainment. J. FORD,
Superintendent of Schools.

P. S.—Will the Press throughout the State please extend the notice.

City papers please copy. d&wtd.

ERROR.—In the communication of Mr. COLVER, which we published yesterday, the word "advocates" in the second line, should have been *admits*, as it was written; and in another part of the article the printers substituted "oldest" for *ablest*.

I AM NOW REMOVED TO THE STORE No. 163 East Water street. It is directly opposite to Mitchell's Bank. I think I have now one of the best stands for auction business in our city. All who have any business in my line will please give me a call. CALEB WALL.

The firm of OGDEN & WALL is dissolved. I will at present occupy the same office for real estate purposes, and attend to all business, such as obtaining loans, selling mortgages, and renting houses. Investments can be obtained in first class Eastern Companies at current rates. In the course of two weeks I intend to make my annual report of the improvements which are now going on in the various Wards of our city. The impression with some is that no improvements are going on, which is a mistake. Milwaukee city is yet alive and going ahead, and will continue to do so. Never was there such an opportunity for capitalists to invest money, as now offers. One thing I would request: all who have made contracts for buildings will please inform me, so that I can report the same. CALEB WALL,

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 10 per cent. in two years; and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable. The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase.

The price of the above property is twelve hundred dollars, cash down two hundred dollars, balance in yearly payments of two hundred dollars—7 per cent. interest.

MADISON, June 23d, 1860.

ANOTHER LINCOLN RECRUIT.—The Madison *Argus & Democrat* having mentioned the name of JOHN R. DETWILER, as a probable Democratic candidate for Clerk of the Board of Supervisors, that gentleman publishes a note in the Madison *Journal*, in which he says:

"It is true, I have been a so-called *hard-shell Democrat*, until I have read the proceedings of the Democratic Baltimore Convention, after which I thought proper to embrace the principles of the Republican party, and so I did. To my friends I mentioned my determination, but I did not see fit to state it publicly, because I did not want to see my name in print, and because I did not become a Republican on account of any office, having never been an office-seeker."

PRESIDENTIAL CANDIDATES ON THE STUMP.—A correspondent of the New York *Times*, adverting to the political speeches of Messrs. DOUGLAS, BRECKINRIDGE, &c., says:

"If it were worth while to look for unhealthy symptoms in a body cut in two in the middle, I could point to the fact that all four of the 'National Democratic candidates' have betaken themselves to electioneering.—Mr. Clay, with all his superior qualities, committed that folly, and was beaten by James K. Polk, who stayed at home and behaved with the dignified reserve which his position called for. Gen. Scott went stumping around, chanting the melodies of the 'rich Irish brogue,' and the 'honest German accent,' but to no purpose. The conqueror of Mexico was disgracefully beaten by poor Mr. Pierce, who, at any rate, knew how to hold his tongue."

A NEWFOUNDLAND DOG FOR THE PRINCE.—Among other trifles, the people of Newfoundland have determined to present the Prince of Wales with a superb full-blooded black Newfoundland dog, whose royal proportions may be judged from the fact that his neck is twenty-four inches in circumference. The animal's collar has been made to order in New York, and weighs forty-five ounces of silver, and is accompanied by an exceedingly fine steel chain, of exquisite workmanship. The whole affair is valued at £350.

A COMPANY OF ZOUAVES has been formed in Detroit under the name of "United States Zouave Cadets of Detroit." The roll numbers about forty men. The following officers were chosen on Saturday evening:

Captain—WILLIAM N. LADUE.
Adjutant—THOMAS B. MACLIN.
First Lieutenant—J. P. SANGER.
Second Lieutenant—E. H. HOWARD.
Third Lieutenant—A. E. VIGER.
Treasurer—JOHN C. PIERCE.

THE SEASONS.—CROPSEY, the artist, who is at present in England, recently sent home four new pictures, entitled the "Seasons."—The *Crayon*, in noticing them, says: "Each season is associated with that one of four countries which is most beautiful or impressive under the aspect portrayed. We have England and Spring together, Italy and Summer, America and Autumn, Switzerland and Winter."

A SLIGHT INCUMBRANCE.—At the BRECKINRIDGE meeting in New York the other evening, DANIEL S. DICKINSON said that when the New England and North-western delegates at Baltimore promised their State to DOUGLAS, that pledge was made "*subject to a slight incumbrance, held by one Abraham Lincoln!*"

A SILENT MEMBER.—The Philadelphia *Press* speaks of Gen. CASS as a "silent member of the Administration party."

Popular Sovereignty Defined! Read! Read!

It is part of the history of the country, that under this doctrine of non-intervention, this doctrine that you delight to call squatter sovereignty, the people of New Mexico have *introduced* and *protected* slavery in the *whole of that territory*. Under this doctrine they have *converted* a tract of *free territory* more than *five times the size of the State of New York*. Under this doctrine, slavery has been extended from the Rio Grande to the Gulf of California, and from the line of the Republic of Mexico, not only up to 36° 30', but up to 38°—GIVING YOU A DEGREE AND A HALF MORE SLAVE TERRITORY THAN YOU EVER CLAIMED.—*Douglas's Speech.*

MR. DOUGLAS ON THE STUMP.—The N. Y. *Times* says of Mr. DOUGLAS' recent politiical harangues:

"Senator Douglas has been making quite an extended tour through the Northern and Eastern States. He stops at a great many places, without the slightest intention of making a speech at any of them; but, from the force of circumstances over which he has no control, he *does* make a speech at every one of them; and, what is still more remarkable, everything he sees everywhere reminds him of the great and glorious doctrine of Popular Sovereignty. The calcium light at Tammany Hall,—the battle-field of Lexington,—Bunker-Hill Monument,—President Felton in his silk gown and square cap of Cambridge—all suggested this great principle. The United States Armory at Springfield, and an interview with the Central Railroad Directors at Albany, had precisely the same effect.—Wherever he goes, whomsoever he meets, whatever he hears, he cannot escape the reflection that the only thing which can possibly save this country from utter ruin is the election of a President pledged to the doctrine of Popular Sovereignty. He deems it absolutely essential that the people of every locality should have the full and perfect right of electing their own rulers, and making their own laws, without the slightest control of dictation from any quarter. If he will visit this section after next November he will find that the people agree with him perfectly, and that they not only assent to his doctrine in theory, but act upon it also."

A SOUTHERN STRIKE!—We have been taught to believe, by the apostles of Slavery, that such things as strikes, riots, and other unseemly demonstrations which now and then break the monotony of Northern life, are impossible at the South. The patriarchal institution, we have been assured, in which capital owns labor, preserves society from all such catastrophes and maintains unbroken and perpetual peace.

We are surprised, therefore, as well as pained, to find that the city of Savannah, in Georgia, is at this moment suffering the dishonor and inconvenience of a vulgar bread riot. The journeymen bakers have struck, are not only demanding higher wages, but are forcibly preventing others from working who will not join in their demand. At the latest accounts the strike was in full blast.—*N. Y. Times.*

Crops and Politics in Dodge County.

Correspondence of the Sentinel.

JUNEAU, Dodge Co., July 24, '60.

EDS. SENTINEL:—Having seen nothing in your excellent journal lately from "Old Dodge," I thought to keep your readers posted about what is "going on about town." Our farmers are now just fairly into their harvesting, and are rejoicing in the prospect of an unusual yield of grain and remunerative prices. This county stands next to Rock, if not equal, in the development of its agricultural resources.

From the fact that grain has had such a rank growth you will find many fields laid low and attacked by rust. Nevertheless, you may expect an immense yield from this county, and of a superior quality.

Help has been scarce, and is now, but not sufficient to command exhorbitant prices.—There has not been so much breaking of new land for ten years as has been done for the last season. Farmers seem to have profited from the experience of the past three years, and are living within their means more. The venturesome spirit of speculation of former time has given place to one of industry, economy and frugality. The land fever is not so great, and farmers find that from eighty acres of land, well cultivated, they realize as much profit as from 160 poorly tilled.

And now, that in a few words I have given you a short statement of what the bone and sinew of the land are doing, let me tell you something of what is going on in our political neighborhood: for you must know that within a few miles of each other live two prominent representatives of the two political parties of the day.

Hon. C. BILLINGHURST stands boldly up and does battle for the Republican party and LINCOLN and HAMLIN, in this village of Juneau; while Judge LARRABEE talks for the Democracy at Horicon, only four miles distant.

We have a Republican Club formed here; its officers all prominent, working Republicans, men of influence and character. A. H. ATWATER is President of the Club, of whom to speak is unnecessary, for "he is an honorable man,"—not as ANTHONY spoke of BRUTUS, but as men speak of OLD ABE LINCOLN, as they know and mean. Hon. CHAS. BILLINGHURST is doing good service in a quiet way, by devoting one evening in the week to some town in the county, where he holds a meeting to goodly numbers.

He has a pleasant way of addressing an audience, and by presenting the great truths of the day in connection with anecdotes and jokes, never fails to draw a crowd, and impressing upon them the true principles of our Government. We have a pole erected here 105 feet high, which triumphantly unfurls a flag to the breeze, and more: it carries to the winds and the knowledge of men the fact that LINCOLN and HAMLIN, for their moral worth, their respect for the rights of man, and their abilities as Statesmen, the people of the Northwest have chosen them as their standard-bearers in the great political battle to be fought in the Fall.

The Democracy of this County have been trying—and are now—to bring the town of Oak Grove back to Democratic fealty. They have a Club formed here, and let me tell you that unable to find sufficient intelligent men in our village, of Democratic proclivities, it was necessary to invoke the aid of the Democrats of Horicon and the village of Oak Grove for help, before the aforesaid Club could have an existence. After the Club got old enough to stand alone, it was announced that the Hon. Judge LARRABEE would deliver one of his most pleasing addresses before the people of the village, on the evening of the 7th. "The Hero of an Hundred Battles" came, saw, but *did not* conquer." He told the people of what he saw at Washington; how Democrats didn't like Republicans, and *vice versa*, during the protracted struggle for Speaker; how poor DOUGLAS was abused at Baltimore—and wound up his speech, reminding me, when he alluded to the unhappy position of DOUGLAS at the Baltimore Convention, of the scene in Hamlet, where the grave-digger says, "Alas poor Yorick." He was a fellow of infinite jest.—And now, before I leave the Judge, let me remind him of a little occurrence that happened in one of the large river towns of Minnesota, last Fall, during the campaign. The Judge had made an appointment to speak there, in connection with ROTHE, of Watertown. When he arrived, it was agreed upon between those Republicans that were disaffected towards the Legislative ticket, on account of State policy in regard to railroad matters, and the Judge, that he should only speak in regard to State policy, and that they would have SAM BEMAN, a Republican, speak also, but neither was to speak on National questions.

SAM, now being a farmer and not very prepossessing in appearance, but rather repulsive from the fact of his being deformed, being a hunchback; the Judge thought he could make more capital by changing the tone of his speech and launching off into National topics. Now be it known there is not a better stump speaker in two States than SAM BEMAN, he having stumped North and South Carolina, and Georgia, for HENRY CLAY, and is, I believe, a half brother of the gifted YANCEY. After the Judge and ROTHE spoke, SAM, after speaking on the Republican State policy in regard to Railroad matters, took after the Judge on National questions, and so completely used him up with sarcasm, argument, and in other ways, that the Judge made good time for his hotel before the close of the meeting. ROTHE says he told the Judge that he was afraid they had got a Tartar. I understand the Judge tells of the fact as a good joke, and as the "wind up" of his campaign in Minnesota.

And, now, to close, let me tell you of a meeting held here last Saturday evening by the *unterrified*. EDWARD S. BRAGG, the would-be nominee for Congress by the Democrats of this District, was announced as the speaker for the evening, and you might have seen, about 4 P. M., a *Federal* officer holder, the Postmaster of this village, going around the county with a horse buggy to impress upon the faithful the great necessity of coming to the meeting, as the Union was in danger. He went to Horicon and told SAT. CLARK and SCHOENMAN, the Postmaster, to get up a load and come down.

They got together in the evening to the number of about sixty, Republicans and all, and BRAGG told them how the Democratic party had in past years rode into power by professing one set of principles, then practising another, pleading guilty to doughfacism. Then he made an affecting appeal to the people to try the party once more, promising to do better; how the present Administration had been characterized by deeds of injustice towards DOUGLAS and the plunder of the Public Treasury for the corrupting of elections and public officials; how DOUGLAS was the Moses *raised* up by the people to save them and the Union; how ABE LINCOLN was a rail splitter, and that the Democratic party were bound to be *mauled* by Old ABE if the people didn't vote for DOUGLAS. In fact he cried "enough," and begged that the good people might still remember DOUGLAS in his affliction, and that he was to be the Saviour of his country, &c.

Col. STEEVER and Judge MILLER had better look out for these two *Postmasters*—their offices will average about $250 per year each. Report them to Old BUCK, and have their heads cut off, before the commencement of the next quarter.

TEN BROECK'S LAST VICTORY.—Mr. TEN BROECK's horse Satellite, by Albion, entered for the Stamford Plate of 200 sovereigns at Newmarket races, on the 4th inst., won the race after a gallant struggle with Mr. SAXON's Brown Duchess and nine other famous horses. The betting was 3 to 1 against him. Satellite is entered for the Goodwood stakes, with the odds of 10 to 1 bet against him.

Reciprocity Treaty.

For the Sentinel.

MR. COLVER, in reply to my second article, quotes in his support the Toronto *Globe*, which, he truly remarks, is the oldest paper in Canada West. Since Mr. COLVER thinks the *Globe* is *good authority* on this subject, it may be well to publish the entire article, a sentence of which he adduces in his support:

J. J.

From the Toronto Globe.

RECIPROCITY.

The question of Reciprocity, whether on the whole it has operated beneficially for the interests of the United States, or the reverse, has recently been under discussion in the Milwaukee Chamber of Commerce. A committee of five was appointed to investigate the subject, and the minority report of Mr. J. D. Colver, adverse to the Treaty, was finally adopted by the Chamber. This minority report is published in the Milwaukee papers. The majority report of the Committee has not been published. We presume it took ground in favor of the Treaty as being for the mutual benefit of the United States and Canada, and we regret to find that this view did not command the assent of the majority of the body which appointed the Committee, and which may be considered to represent the sentiments of the business men of Milwaukee.

There is very little that is new on the subject in Mr. Colver's report. He quotes the figures adduced by Commissioner Hatch to show that, if the goods admitted from Canada free, came in paying duty, the United States Exchequer would derive from them a considerable revenue, of which it does not now receive a dollar—a fact, for whose proof no array of statistics is required. The object of the Reciprocity Treaty, as sought by Canada, was to obtain the admission of its produce into the United States free of duty—the Americans, of course, on their part receiving certain equivalents for this concession—and it is passing strange that the success of the Treaty in accomplishing one of its main and palpable objects should be urged as an argument against it. Canadians admit that Reciprocity has been an advantage to them—if it were not so, it would have failed in fulfilling the intentions of its promoters—but they hold that, by the impulse the working of the Treaty has given to the trade between the two countries, both have been equally and mutually benefitted. Mr. Hatch and Mr. Colver ignore altogether the figures in the Trade Returns, which show that the Trade of the United States with Canada has vastly increased under Reciprocity. Their whole argument depends upon the fallacy, that, because Canada has gained something by Reciprocity, the United States to that extent must have been losers. If they had looked at the question in all its aspects, they would have been that both countries had gained and neither had lost, by the degree of free intercourse between them which has been established.

But Mr. Colver not only shuts his eyes to the important fact of the United States having found in Canada under Reciprocity a greatly increased market for their products—he also exhibits the weakness of his case by unduly exaggerating the advantages of the arrangement to Canada. He asserts, for example, that timber lands in Canada, along the frontier, have in consequence of Reciprocity, increased in value from one dollar per acre to ten or twenty dollars per acre, and that farming lands in Canada in many cases have doubled several times in value from the same cause, while the value of lands on the other side along the northern frontier, has remained stationary or decreased. Unfortunately the landed interest in Canada is far from being in so prosperous a condition, as Mr. Colver would represent it to be, and the statements he makes on this point only add to the proofs of the one sidedness of his report. Another very curious argument brought to bear against the Treaty by Mr. Colver, is that it is hindering Annexation! This surely cannot be a legitimate reproach against it. Mr. Colver wants to hurry on annexation, and because the Reciprocity Treaty does not help forward that consummation, he cries out—"let it be abrogated!" It would have been extraordinary indeed, if the tendency of a Treaty to which Great Britain was one of the two high contracting parties, had been to encourage the annexation of the British North American Provinces to the United States, and we therefore attach little weight to Mr. Colver's complaint that "it [the Treaty] has done more to defeat annexation than all other acts or legislations on both sides since the formation of the two governments."

Not seeing, in the nature of things, the desirability of severing connection with Great Britain, we should deem it rather of an argument in favor of Reciprocity than otherwise, that it has done anything in the direction of making annexation to the United States more impossible than it was before. But while urging that the treaty ought to be annulled, Mr. Colver adds, and the Milwaukee Chamber of Commerce endorses his view—"If we are to have free trade with Canada, let it be as free as the winds, not a regular one-sided northern gale," &c. There are very many in this country who would heartily concur in the view that there should be complete Free Trade with the United States, on the principle of the German Zollverein. But the attainment of such a result is yet far off. In the meantime, half a loaf is certainly better than none. Because entire Reciprocity has not been secured, that is no reason why the large measure of it now in beneficial operation should be pettishly thrown away.

We find in the Milwaukee *Sentinel*, an elaborate reply, above the initials "J. J." to Mr. Colver's report. Mr. John Johnston, the gentleman understood to be the author of this paper, handles with much ability the calculations given in the report—which are those substantially of Mr. Hatch—and proves that, by their omissions of a great deal that is essential, they present a very distorted and one sided view of the question. Mr Johnston gives the figures which Hatch, Ely, Colver, and other opponents of the Treaty omit, and shows that instead of the Treaty having ruined the trade of the United States with Canada, the fact was that within two years after the treaty came into force, the United States sent into Canada three times as much as they did two years before its operation—that, though in 1857 and 1858, the trade with Canada diminished on account of the general financial depression, in 1859 it began to recover—that while previous to the Treaty, the foreign goods exported from the United States to the British Provinces were equal to two-thirds of the domestic, since the Treaty the domestic exports were four times as large as the foreign—and that during the last four years the United States sent to the British Provinces $24,000,000 worth of commodities more than the British Provinces sent into the United States.

Such facts as these, Mr. Johnston very forcibly observes, do not look like warranting the statement that Reciprocity is a "northern gale blasting and injuring American interests." The whole question is very ably argued by Mr. Johnston, from the American point of view, and if it comes before the Milwaukee Chamber of Commerce for re-consideration, the facts he has brought together must have considerable weight in influencing their decision.

In all the discussions on the other side, we observe that by the opponents of the Treaty a great deal of stress is laid on the recent Canadian Tariff arrangements as hostile to the spirit of the Reciprocity Treaty.—And it is in connection with this point that the advocates of Reciprocity experience the greatest difficulty in repelling the attacks directed against it. It is very much to be regretted that the Canadian Government should have done so much to imperil the existence of a Treaty of the highest importance to this country, by placing in the hands of its opponents the most powerful weapon of attack with which it has been assailed.

DETROIT RECOMMENDS THE ABROGATION OF THE RECIPROCITY TREATY.—The Detroit *Tribune* of Tuesday evening contains the following:

"The Committee heretofore appointed by the Board of Trade to make a report on the operations of the Reciprocity Treaty, had a meeting on Saturday, at which a resolution was adopted in favor of the unconditional abrogation of the Treaty, unless a material modification can be effected, so that its operations may be governed by some degree of fairness. Notwithstanding several of the gentlemen of the committee are directly interested in the free navigation of the St. Lawrence, and although at the outset some diversity of opinion existed among them, the resolution passed *unanimously*. Proofs of the glaring injustice of the operations of the treaty have multiplied so rapidly, that this is the only conclusion that can be arrived at after a calm investigation.—To call such a one-sided measure a *Reciprocity* Treaty, is decidedly a misnomer, since the enactment of the unjust and partial Canadian tariff, which removed every vestige of its *spirit*.

The committee will make their report at the meeting of the Board on the first Tuesday of the ensuing month."

HOW TO DESTROY THE CURCULIO.—Mr. William Archer, a well known nurseryman of Utica, N. Y., says:

Recipe.—Procure a tin pail, punch holes in the bottom; procure a pole that will reach above the top of your plum trees; fill said pail with air-slacked lime; hold the whole thing over your plum trees in the morning before the dew is off, strike lightly on the pole and sprinkle the lime on the trees. Repeat this operation say about three times, and your plum crop is safe. The curculio won't work where lime is.

North and South.

The problem to be solved in this Presidential canvass, is not so much the future status of parties as the relative weight of the North and the South in the Federal Government. This question must ultimately determine the policy of the nation, as it certainly does the prospects of slavery as a domestic institution of the South. The regimen of the Democratic party, as well as the animus that has characterized the plans of Southern politicians generally, has necessitated a sharp definition of the future relations, as well as an exact measurement of the legislative powers, of the two divisions of the confederacy. The disruption of the great Democratic party has disclosed this as a vital question. All party interests and aims, for the present, are subordinate. They must be held in abeyance until this is settled, for by its determination will all other questions be affected. The South will employ tactics having reference exclusively to this one point. She has hitherto used the shibboleth of party as a shield to her purposes, and, under cover of a national party organization, has accomplished her sectional designs. There has always been a striking of hands between the Democratic party and the South, each being aware that in the selfish union resided the safety and permanence of both. It has been a league of dangerous power. On the one side were fear, the maintenance of a sectional interest, and a consequent greed for legislative control. On the other there were lust of party dominion, a base sacrifice of principle, an enervating submission to oligarchic tyranny, and a shameless treachery to the interests and prestige of the North. It has been a covenant of iniquity not only, by which the conscience of the nation has been debauched and its glory dimmed in the eyes of the world, but also one of unparalleled cowardice, covering Northern statesmanship with deserved scorn.

This policy has been unwittingly defeated. Providence has suffered the ambition of the South to culminate in a dissolution of the very agency by which she has hitherto effected his purposes. Thereby the joint enemy of the free principles and institutions of the North has received its merited punishment. The Democratic party is broken into fragments, while the South is powerless. The humiliation of this long dominant power conveys these important lessons to Christian and patriotic voters:

1st. Be not alarmed by Southern gasconade. It is only an acknowledgement of fear. Be on the alert. Be courageous for the right, and the reign of brute force is broken. The disgrace of our legislative chambers can now be atoned for by an indignant rebuke of its authors. Let the right of free speech be vindicated by an emphatic exhibition of the power of free suffrage.

2d. Be not beguiled by the plea of conservation. This is the counterpart in the North, to the bullying boasts and threats of the South. It is also the voice of fear or fraud, or both. It should signify nothing manly to honest or courageous souls. It is a lullaby for a womanly statesmanship that will yield to wrong rather than fight. But its magic is well nigh gone. The bugbear has been exposed by the disruption of the Democratic party. Dissolution means nothing when uttered by the South. It is only so much local capital for Yancey & Co.—When used by the North as a whip and a spur for ignorant or timid pliant folks, it is simply laughable. A Northern conservatist is one who has dropped out of the line of progress, or out of the light of the period, because banks and tariffs are no longer discussed, sees Gorgons and Hydras dire in questions that are mooted in every village debating club. An honest, natural specimen may be pitied as a moral fossil; but a voluntary, selfish conservatist is a trickster who, now that a contest is pending in which his trade in politics may be jeopardied, only appeals to fear and cowardice.

3d. Let the friends of freedom in the North and West seek a consolidation of strength. One organization is sufficient to embody the one issue. A multiplication of factions will endanger victory. Let Americanism, Whiggery, and all past badges be dropped, and let there be a universal rallying to the one standard, emblazoned with the motto, "Opposition to the Slave Oligarchy." The inherent conservatism of Northern statesmanship is an ample security against hasty or revolutionary action on any subject of legislation. Let the purpose and effort of the hour be to elect Lincoln and Hamlin, because they are men of principle and moral courage, who will, at all hazards, hold in check or repel the frightful aggressions of Southern selfishness.

4th. Let the North, more studiously than ever, avoid all complicity with the organized iniquity of the South. The judgment of God is upon it. Its abettors sooner or later must be overtaken in direct visitation of wrath or consequential loss. Now is the time for the people to make through the polls a protest against this iniquity, which, continuing its utterance through years of legislation, may conciliate the favor of God, while it will make a brightening record for the nation.—*N. Y. Independent.*

DEATH OF COL. SHELDON MCKNIGHT.—The news was received here yesterday that Col. Sheldon McKnight had died at Washington on Saturday evening last. This melancholy intelligence created as much suspense as regret in this city, for it was not previously known that he had been ill. Last week his wife received a telegraphic dispatch to meet him in New York. She immediately left Detroit for that purpose.—But on reaching New York she found that Col. McK. had not arrived, for what reason was not known until she received another dispatch informing her that he was in Washington, too ill to proceed to New York, and requesting her meeting him in Washington. She started at once, but arrived too late to see him alive. He died on Saturday evening, and she did not reach Washington until Sunday evening.

Col. McKnight was born at Little Falls, Herkimer county, N. Y., in 1810, and removed to Detroit in 1820 or '21. He was a practical printer, having served a regular apprenticeship with his uncle, Thomas C. McKnight, Esq., in the office of the Detroit *Gazette*, and followed that business for several years. In 1833 he established the Detroit Semi-Weekly *Free Press*, which was changed to a Daily in 1835. He was for several years Government printer, and during his connection with that paper, acted a prominent and most influential part in the politics of the Territory, as he did in procuring a State organization and the admission of the State into the Union. In consideration of his efficient political services, being a zealous Democrat, he was appointed Postmaster of this city in 1836, which office he held during Mr. Van Buren's administration.—*Detroit Daily Advertiser, July 24th.*

FIRST PREMIUM
Celebrated Family and Manufacturers
SEWING MACHINES.

THESE MACHINES ARE FIRST CLASS and make the well known SHUTTLE, or LOCK STITCH, which for economy, durability and beauty far surpasses all other kind of stitch.

The proprietors warrant their machines to do more work and give better satisfaction to the purchaser, than any other Sewing Machine in the market, and to sew from the finest gauze to the heaviest cloth, or hard leather, with the machine running at highest speed, without stopping or changing tension, making the seam elastic, alike on both sides and dropping no stitches. It is safe to conclude that the machine that will do this BEST is the best for family use.

Family Machines from $50 to 125.

All of these machines, Family, Manufacturers and Larger, are built upon the same principle, and free from all Wire Springs, Leather or Rubber Pads, which cause so much annoyance in other machines. For manufacturing purposes this machine has no rival for Tailor, Harness Makers, and for any one who wishes a reliable machine, and one that is always ready for any kind of work; and all kinds of Sewing on Cotton, Linen and Silk. WE DEFY THE WORLD.

Manufacturing Machines from $85 to 125.

All machines warranted to give better satisfaction than any other Sewing Machine in market, or money refunded.

Constantly on hand all kinds of Sewing Machine findings.

CELEBRATED NOISELESS
FAMILY SEWING MACHINES!!
NEW STYLES—PRICES FROM $50 TO $125.
HEMMERS, $5 EXTRA.

THESE MACHINES SEW FROM TWO Spools, as purchased from the store, requiring no rewinding of thread; they Hem, Fell, Gather, and Stitch in a superior style, finishing each seam by their own operation, without recourse to the hand-needle, as is required by other machines. They will do better and cheaper sewing than a seamstress can, even if she works for one cent an hour, and are, without a doubt, the best Machine in the market for family sewing, on account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing—executing either heavy or fine work with equal facility, and without special adjustment.

WE OWN THE EXCLUSIVE RIGHT for the sale of *MITCHELL'S PATENT METALLIC TIPPED BOOTS AND SHOES*, for and in the States of Wisconsin, Iowa and Minnesota, and hereby give notice that all parties dealing in these goods within the above States, without having first arranged with us and by our consent, are and will be direct infringers upon our EXCLUSIVE rights, and that as soon as we are advised of any infringement, shall demand proper and immediate redress.

We have made extensive arrangements with the most celebrated manufacturers, whereby we can fully supply the increasing demand with the best qualities of these Tipped Boots and Shoes from our store in Chicago, each pair of which will be stamped and labeled with our name.

We shall recognize no Tipped goods within either the above States, but such are thus stamped and supplied by us.

PIMPLES AND SKIN DISEASES

ARE THE RESULT OF IMPURE blood. The blood becomes thick and clogged. The skin is not able to cast off the impurities so important to health. How many young men and women we see with their faces covered with pimples and blotches, who are endeavoring to remove them by the use of soaps and washes of various kinds. This is very dangerous and should never be practiced by persons desirous of good health. Mothers who have children afflicted with sores and eruptions should never dry them up by external applications for in this way they will drive in the humors and produce ill health for the child during its whole life time. There is no mother that likes to see her children afflicted with feeble health.

JUDSON'S MOUNTAIN HERB PILLS are prepared expressly for the cure of eruptions of the skin, such as Pimples, Blotches, Sores, &c. They cleanse the blood of all impurities, producing a beautiful, clear and healthy skin, so much admired by all people of taste and refinement.

Judson's Mountain Herb Pills are sold by all medicine dealers. jy13j861ldowcow3m

GIRLS AND WIVES.

Somebody has written the following about the girls and set it afloat:

God bless the girls,
Whose golden curls
Blend with our evening dreams;
They haunt our lives
Like spirit wives,
Or—as naiads haunt the streams.

They soothe our pains,
They fill our brains
With dreams of summer hours,
God bless the girls,
God bless their curls,
God bless our human flowers.

The wives, we think, are quite as deserving of a blessing as the girls; therefore, we submit the following:—*Exchange.*

God bless the wives,
They fill our hives
With little bees and honey;
They ease life's shocks,
They mend our socks,
But—don't they spend the money?

When we are sick,
They heal us quick—
That is if they should love us;
If not; we die,
And yet they cry,
And place tombstones above us.

Of roguish girls,
With sunny curls,
We may in fancy dream;
But wives—true wives—
Throughout our lives
Are everything they seem.

THE MAGIC BOX.—A housekeeper's affairs had for a long time been becoming very much entangled, and the poor woman knew not what to do to get out of her difficulties.—After a time she bethought herself of a wise old hermit who lived in the neighborhood, and to him she repaired for advice. She related to him all her troubles, saying:

"Things go on bad enough; nothing prospers in doors or out; pray, sir, can you not devise some remedy for my misfortunes?"

The hermit—a shrewd, rosy man—begged her to wait, and retiring to an inner chamber of his cell, after a short time brought out a curious looking box, carefully sealed up. "Take this," said he, "and keep it for one year; but you must, three times a day and three times a night, carry it into the kitchen, the cellar, and the stable, and set it down in each corner. I answer for it, that shortly you will find things improve. But be sure, at the end of the year, to bring back the box. Now, farewell."

The good woman received the precious box with many thanks, and bore it carefully home. The next day, as she was carrying it into the cellar, she met a servant who had been secretly drawing a pitcher of beer. As she went a little later into the kitchen, there she found a maid making herself a supper of omelets. In the stable, she discovered deep in mire, the best cow standing, and the horse, uncurried, had hay instead of oats. So every day she discovered and corrected some mistakes and faults. At the end of the year she, faithful to her promise, carried the box to the hermit, and besought him to allow her to keep it one year longer, and I am sure all will be remedied." The hermit smiled, and replied, "I cannot allow you to keep the box, but the secret that is hidden within you shall have." He opened the box and lo! it contained nothing but a slip of paper, on which was written this couplet:

"Would you thrive most prosperously,
Yourself must every corner see."

HOW TO MAKE SUMMER BEVERAGES.—As the season is at hand when pleasant summer drinks, free of alcoholic influence, brewed by the housewife or the well brought up daughters who are taught a little of everything in the way of household duties, we append the following recipes, which are claimed to be excellent:

1. Take three gallons of water, of blood warmth, three half pints of molasses, a tablespoonful of essence of spruce, and the like quantity of ginger, mix well together with a gill of yeast, let them stand over night and bottle in the morning. It will be in a condition to drink in twenty-four hours. It is a palatable and wholesome beverage.

If you want spruce flavor, add one teaspoonful of essence of spruce,—lemon, ginger, or any other flavor you prefer. It will last to make five or six brewings; when it is exhausted renew it. When the beer passes from a vinus into an acetus formation, it can be corrected by adding a little more molasses and water. This is a simple and cheap beverage, costing about three cents per gallon. After the beer becomes ripe it ought to be kept in a cool place to prevent it from becoming sour before it is exhausted.

2. Those who prefer mead have only to substitute honey for the molasses named above, and for one-third of the ginger use allspice. Half the quantity of yeast will be sufficient, and the bottling should occur the second day instead of the next morning. It will be fit to drink in four days after being bottled, and will keep for many weeks.

3. Prepare a five or ten gallon keg, in proportion to the size of the family—draw a piece of coarse bobinet, or very coarse book muslin, over the end of the faucet that is inserted in the keg, to prevent its choking, a good tight bung, and near to that a gimlet hole with a peg to fit it tight.

For five gallons, one quart of sound corn, put in a keg with a half a gallon of molasses, then fill with cold water within two inches of the bung. Shake well, and in two or three days it will be fit for use. Bung it up tight.

A HYBRID PLUM OR NECTARINE.—An entirely new species of fruit has sprung up among us, that seems to unite the characteristics of both the wild plum of our woods and the red nectarine peach, and all that is known of its origin is the following: A gentleman near Franklin, in his garden, planted some stones of the red nectarine peach, which, on germinating and throwing out their leaves, one among them was discovered of very singular formation, and like nothing else the gentleman had seen. He let it grow and when transplanting his nectarines, left it standing in his garden, where it has fruited for the last three years, the fruit being of a fiery red color, the size of the nectarine, and nearly round in form, and of most delicious taste, the pulp being soft, juicy and rich, and to my taste superior to any of the plum family. Its proprietor referred it to myself for a name, and I at once saw, from the peculiarities of the tree and fruit, that it was a hybrid, which owed its origin to a wild plum and a nectarine peach, but could not venture to publish my opinion until I saw that the nectarine and plum had been hybridized by Dr. Wylie, of Chester, S. C., he having exhibited the fruit at the South Carolina fair, and taken a premium as a reward of his success.

This is a new fruit of exquisite beauty and fine taste, ripening through September, and thus far has been free from the curculio punctures—a thing that cannot be said of our gages, except where hogs run about the trees. The tree inclines to run to top, with clean smooth branches, free from spurs. A leaf I send herewith, also the short one from the wild plum, that you may see that its length occupies that middle space we would suppose it ought between the foliage of its parents. S. McDOWELL.

Franklin, N. C., Feb. 14, 1860.—*Cincinnatus.*

GOOD ADVICE.—In the course of some remarks to the young ladies who graduated on Tuesday from the Mount St. Vincent Academy, Archbishop HUGHES made the following excellent suggestions:

"Although it is of the utmost importance, young ladies, that you should have a good education, should be accomplished, cultivated, graceful, and refined, yet there are other things that cannot be lost sight of. Before another year rolls around I purpose to arrange with the Sisters for a new branch of study in the Academy. That branch of study is what the French call the science of *cuisine*. It is the science of keeping house, and that we all know commences with the kitchen. Every young lady, I don't care if she be a Queen's daughter, ought to understand that department of life. Even though she may not have to practice it, though she may be able to hire her cook, yet she should understand it herself, for it may happen some day that the cook will dismiss her. [Great Laughter.] What a predicament she would be in then. Well, what I was going to say was that the Sisters should arrange it so that all the girls over thirteen years of age should be enabled to spend a portion of the time in the kitchen, and become acquainted with cooking and housekeeping. Here will be a new bureau of education. [Laughter.] We shall then have the theory and some practice too."

MEASURING HAY.—An old farmer communicates to an exchange the following method of measuring hay, which he says he copied from an old publication; to those living at a distance from hay scales, and desiring to estimate the product of their acres, the plan seems quite desirable. It is this: Multiply the length, breadth and height into each other, and if the hay is somewhat settled, ten solid yards make a ton. Clover will take from ten to twelve solid yards per ton.

We mean what we say, and stand ready to verify it every hour in the day and every day in the week. We make it a point never to be undersold, and want it distinctly understood that we do our business upon that principle.

Country merchants can always sort up their stock with us, to a good advantage. We will sell you goods by the package as low as any of the wholesale dealers down town.

Butter and Eggs are received by us daily, from our agents in the country.

St. Nicholas Hotel,
BROADWAY.
NEW YORK.

WHEN COMPLETED, SIX YEARS ago, the St. Nicholas was universally pronounced the most magnificent, convenient and thoroughly organized establishment of the kind on this continent. What it was then, it remains today—without a rival in sumptuousness, and in the general elements of comfort and enjoyment. The Hotel has accommodations for 1,000 guests, including 100 complete suites of apartments for families. Six hundred persons can be comfortably seated at the tables of its three public dining rooms, and nothing that modern art has devised for the convenience and social gratification of the traveling public has been omitted in its plan, or is neglected in its practical details. The early reputation of the house at home and abroad derived from its magnitude, its superb appointments, and its homelike comforts and luxuries, has been enhanced every year by the unwearied exertions of the proprietors.

For Hot and Cold Dishes of all Kinds.

THIS MOST DELICIOUS and appetising Sauce, invented by the renowned "SOYER," for the London Reform Club, is, since his decease, manufactured by the well known house of CROSSE & BLACKWELL, London, from the original recipe. It is the favorite sauce in England and on the Continent, with a high and growing reputation among American Epicures, and is much approved of as a stimulant to the appetite and aid in digestion.

Opinions of the London Press.

"We recommend our correspondent to try MONS. SOYER'S new Sauce, entitled the 'Sultana's Sauce.' It is made after the Turkish recipe; its flavor is excellent, and it affords considerable aid in cases of SLOW AND WEAK DIGESTION."—*The Lancet.*

"Savory, Piquant and Spicy, worthy the genius of Soyer."—*Observer.*

"A most valuable adjunct to Fish, Flesh and Fowl, and should have a place on every table."—*Atlas.*

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures EVERY KIND OF HUMOR FROM THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, (both thunder humor.) He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.

One to three bottles will cure the worst kind of pimples on the face.

Two or three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the stomach.

Three or five bottles are warranted to cure the worst kind of Erysipelas.

One to two bottles are warranted to cure all humor in the eyes.

Two bottles are warranted to cure running of the ears and blotches among the hair.

Four to six bottles are warranted to cure corrupt and running ulcers.

One bottle will cure scaly eruptions of the skin.

Two or three bottles are warranted to cure the worst kind of ringworm.

Two or three bottles are warranted to cure the most desperate case of rheumatism.

Three or four bottles are warranted to cure salt rheum.

Five to eight bottles will cure the worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother.

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of

CANKER

it extends to the stomach, causing

DYSPEPSIA

which is nothing but canker on the stomach; then the intestines and

KIDNEYS

creating a sinking, gone feeling, and an indifference even to the cares of your family.

Your stomach is

RAW AND INFLAMED,

your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to

CURE:

Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also that most excruciating of diseases the

PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly, DONALD KENNEDY.

WINCHESTER'S GENUINE PREPARATION OF THE

OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

"This Remedy has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act as a preservative with regard to Consumption, just as vaccination does with regard to small pox."

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

Ayer's Cathartic Pills.

THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints:—Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul Stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative power. The sick want the best aid there is for them, and they should have it.

Speech of the Prince of Wales.

ST. JOHNS, July 25—3 P. M.

Yesterday addresses were presented to the Prince of Wales, to which he replied as follows:

I sincerely thank you for the addresses presented to me, and for the hearty welcome received from all, on my landing on the shores of the earliest colonial possessions of the British Crown

I trust you will not think me regardless of your zealous loyalty, if I acknowledge these addresses collectively.

It will afford me the greatest satisfaction to report to the Queen, the devotion to her crown and person, unmistakably evinced by the reception of her son, and eloquently expressed in the addresses from various bodies in this town.

I am charged by the Queen to convey to you the assurance of the deepest concern she has ever felt in this interesting portion of her dominions.

I shall carry back a lively recollection of this day's proceedings, and your kindness to myself personally, but above all, of those hearty demonstrations of patriotism which prove your deep rooted attachment to the great and free country of which we all glory to be called her sons.

The Prince pleases the populace immensely, by his handsome countenance and mild, gentlemanly bearing. He drives out to-day. There will be a dinner party at the Government House this evening, and a ball at ten o'clock to-night. The fire works last night were a poor affair.

To-day is a beautiful clear day for the regatta.

Excitement in Northern Texas.

ST. LOUIS, July 25—9 P. M.

An extra from the Bonham, Texas, Era Office of the 17th, received to-night by the Overland Mail, contains a letter from Chas. A. Price, editor of the Dallas Herald, stating that the fire at that place on the 8th, led to the discovery of a diabolical plan to devastate the whole northern part of Texas—White men, friends of the abolition preachers, Blunt and McKinney, expelled from the country last year, instigated the plot.

The plan was to lay the whole country in waste by fire, destroying all arms, ammunition, &c., to get country in a state of helplessness and on election day make a general insurrection, aided by emissaries from the North and parties friendly to the cause in Texas. Their sphere of operations was districted and sub-districted, each division being under supervision of white men who controlled negroes as subordinates.

Several white men and negroes were arrested at Dallas.

The following fires are reported to have occurred on the same day: Dallas destroyed—attributed to the same cause; the large mercantile house at Black Jack Grove—loss $30,000; three business houses at Denton—loss $100,000; a large store house at Pilot Point—loss $10,000; a store house at Ladonia—loss $25,000; eight stores at Belknap—loss not given; Milford, Ellis county, totally destroyed, and several other smaller fires.

THE NATIONAL HORSE FAIR.—We are glad to notice by our exchanges, that the National Horse Fair to be held here on the 4th, 5th, 6th and 7th of September next, is exciting a general interest throughout the country. Those having the management in charge are busy in making the necessary arrangements for a large crowd, and for the accommodation of persons bringing horses and other animals to compete for the different prizes to be awarded. From all we can learn, this fair will attract one of the largest—if not the largest—concourse of people ever assembled in the northwest. Our hotel keepers are already preparing for the occasion, and we learn that during the fair the Hyatt House will be opened under the management of experienced gentlemen. This house is the largest in the State—except, perhaps, the Newhall House in Milwaukee—and all having it in contemplation to visit this city during the fair may rest assured that with our other excellent hotels, and the Hyatt House opened, and such accommodations as boarding houses will furnish, no fears need be entertained that comfortable quarters may be secured for any crowd, however large it may be.—*Janesville Gazette.*

RUST ON GRAPES.—A late writer says:—Rust proceeds from a sudden transition from heat to cold acting upon the young and tender skin of the grapes, which is more in danger from its setting up till the time it is as large as an early pea (dry seed); but it is not cold wind that does it, except any one is so imprudent as to give front air at the season of the year to early grapes; but it does proceed from the vapor caused by pouring water upon, or syringing the flues or pipes while the young grapes are in that tender stage of growth.

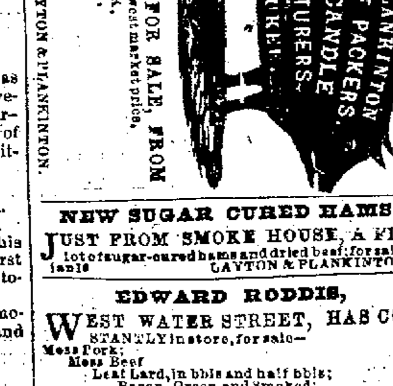

CITY PASSENGER RAILROADS IN ENGLAND.—The horse railroad lately constructed in Birkenhead, England, by George F. Train, Esq., of Boston, is highly successful. Before a year has elapsed, half the cities in England will have their horse railroads, and thank America for inventing and an American for introducing them into England.

THE CONFESSION OF REV. J. S. HARDEN, recently hung in New Jersey for wife murder, has been bought from his father for $2,000, and published. In our market there was a nominal decline of 5c, buyers offering only 90c for No. 1 spring, but there was no business of any account done, owing to the smallness of receipts. Six hundred bushels No. 1 were sold for delivery next week at 90c. No sales of Extra reported, and millers would not pay within 5c of yesterday's prices for that quality. By next week our dealers look for some light deliveries of new wheat. To-day, a few bushels were sent in from Racine county as a sample. It was of very superior quality. The flour market remains at a stand. The transactions in coarse grains include 1,200 bus oats f. o. b. at 29c; and 240 bus shelled corn at 44c delivered. Other articles quiet and unchanged.

In reference to the market the *Press & Tribune* says:

Winter Wheat was in good request, and the market steady and firm at $1@1,00½ for No 1 Red; 94@96c for No. 2 Red; and 85c for rejected. There was also a fair demand for Spring wheat, and the prices of yesterday were fully sustained, with liberal sales at 92@92½c for No. 1 spring; 89@90c for No. 2 do; and 80c for rejected do. LUMBER—During the past week there has been a good demand for cargoes by dealers in the city as well as by country dealers, and under the light supply the market has advanced about 50c ℔ M since the date of our last weekly review. Good cargoes have been in special request, and the advance is more noticeable on this request than on the lower qualities. The city dealers begin now to think of laying in a good stock of uppers, and it is this fact, more than anything else, which has caused the buoyancy in the market. Seven or eight of our heaviest dealers, fearing lest they might be unable to buy upper qualities in the river, have gone to Saginaw to make purchases, and where they will have to compete directly with buyers from Albany and Ohio. The following sales were made during the week:—cargo of timber from Manistee, per schr. Irwin, at $7 for short lengths and $8 for long; schr. Perry Hannah, mixed, from Pier Marquette, at $6; schr. Harvest, from Oconto, mill run, at $6,62½; schr. F. B. Gardner, from Pensaukee, mill run, at $7,50; schr. Wm. Tell, mixed, from Pentwater, at $6.20; schr. Tuscola, mixed, from Grand River, at $6; cargo to arrive from White Lake, at $7; schr. Falcon, from Depere, boards, at $7; schr. Pacific, from Oconto, at $7 50; schr. Blue Belle, from Oconto, at $7; schr. Sebastopol, from Holland, mixed, at $6,75; schr. Monsoon, good cargo from Muskegon, at $8.

The business in the yards improves slowly. There is a fair inquiry for good strips and boards, and dealers are somewhat stiffer in prices: but there is no real advance in quotations. And indeed no great improvement is anticipated in this respect until the crops are all harvested. Then, if the demand is such as is expected, an advance will be established.

SHINGLES—The market remains quiet, but firm. During the week, a cargo of prime Rogue River Shingles was sold at $2,12½ for 200,000, and $2,05 for about 80,000. The cargo of the schr. Falcon, from Depere, was also sold at $1,85 for common A. Several cargoes of Manitowoc shingles were sold at $1,75@1,87½ for A qualities.

LATH—There is a fair demand and the market remains steady at $1@1,15½ afloat.

WESTERN TRANSPORTATION COMPANY.

At a meeting of the Board of Directors of the Western Transportation Company, held July 18th, in Buffalo, L. H. RUMRILL was elected Treasurer of the company, vice R. L. FURMAN, deceased. Mr. RUMRILL has been long connected, in responsible situations, with the company, and is an active, shrewd and reliable business man. His appointment will satisfy the friends of the company that the hitherto able and prudent management is not to undergo any change.

THE SCHOONER WASHINGTON IRVING.—It would seem there is no longer room to doubt the loss of this vessel. She left Erie for this port two weeks ago last Saturday, and has not since been heard from. Whether she foundered or was struck by some other vessel seems altogether a mystery. The following is given by the Erie *Gazette* as a correct list of those on board: Captain, Stephen H. Vaan-tra; Mate, Antonio Yeary; before the mast, Henry House, Owen Keep and Peter Silvery; passenger, Cornelius Leary. All the above named persons belonged to Erie, except Owen Keep, who resided in Buffalo. Nearly all have left families to mourn their loss.—*Buffalo Commercial, July 23.*

BROKE HER CYLINDER-HEAD.—The propeller *Susquehanna*, while on her passage from Buffalo to Chicago, and when within ten miles of Presque Isle, Lake Huron, on Saturday last, broke her cylinder head by the strap giving way which connects the connecting rod with the piston. Her passengers, some fifteen or twenty in number, were taken on board the propeller *Racine*, which came along shortly after. The propeller *Young America*, bound down about the same time, took the *Susquehanna* in tow, bringing her as far as Sarnia, from which point she was brought to this city by the propeller *Pittsburgh*, where she at present remains awaiting orders from her owners at Cleveland. It is more than probable she will proceed to Cleveland to make all necessary repairs.—*Detroit Free Press of Tuesday.*

FROM LAKE SUPERIOR.—The propeller Marquette arrived at 9 o'clock last evening. She left Marquette Saturday, 21st inst., with a load of iron ore for Cleveland. The Lady Elgin and Gen. Taylor left Marquette, bound up, on Friday night. The following vessels were at Marquette loading. Propeller Mineral Rock; schrs. B. Parsons, Huntress and Canopus. The schooners Tracy J. Bronson and N. C. Hart left the day before. The following vessels passed through the Saut Canal, bound down:—On the 20th, R. G. Winslow; 21st, A. E. Hart, Tracy J Bronson, Mary B. Hale, B. Parsons, Shook, Australia. Met below the Saut the steamer Illinois; schooners St. Paul, Yorktown, Storm King, Rebecca, and W. B. Ogden. There was a vessel, name unknown, aground at the entrance to Hay Lake Passage. Passed the Northern Light at 2 P. M. on Lake Huron, about twenty miles from Saut River, and the Sea Bird at 5 P. M. off Presque Isle.—*Ibid.*

ASHORE.—The schr. *Storm Spirit*, of Chicago, and bound for this port with a cargo of 9,500 bus corn, went ashore about 10 miles above Long Point, Thursday night. She is full of water. The vessel is not insured, but the cargo is. The tug *Relief* was dispatched yesterday to her assistance.—*Buffalo Express.*

GOVERNOR VALVES,

FOR REGULATING THE

WARRANTED THE MOST PERFECT Governor of Steam Power in the world, and like all really great inventions, the most simple. Manufactured by Judson & Snow, at Rochester, N. Y., Selye Buildings, near R. R. Depot.

Shop Rights for sale.

CAUTION TO INFRINGERS.

Patent issued in the United States, Nov. 5th, 1849. Reissued, Jan. 4th, 1851. Second Patent, March 4th, 1851. Patented also in Great Britain and the Canadas, June 6th 1851.

This improvement consists in making regulating valves to open with a rapidly increasing ratio of opening, by increasing the width of the opening made in the valve—or by accelerating the opening motion of the ordinary valve—in use—or by combining increased width of opening, with accelerated valve motion. My patent Valves and Governors are so arranged as to give the resistance to the piston's motion, (or retard of the engine,) the power to open the valve just the exact amount of aperture necessary to counteract that resistance: and from the aperture, by the addition of equal amounts of resistance, notwithstanding that the action of the governors continually decreasing in its effects.

Therefore reverse the action of valves combined with governors, as heretofore used. And as this effect can be produced by many different mechanical devices, (apparently not similar, but really identical with my improvement,) by which infringers have imposed upon the public, I therefore caution and request all persons interested, to examine carefully all alleged improvements in valves or governors, to see if the application of this truth or principle, first discovered and applied by me, is not involved in their arrangements;—and thereby prevent a fraud upon the purchaser and inventor, both of which are at present much annoyed by their piratical depredations.

RAILWAY MATTERS.

LLOYDS AMERICAN RAILWAY WEEKLY.

We have received the first number of this new railroad journal published in New York City. As its name indicates, it is to be published weekly, and will therefore be a more valuable railroad guide than any other publication of the kind now in existence, containing, as it does, in addition to the time tables of every railroad in the United States and the Canadas, the thro' and local passenger rates of each, and a fine large map embracing the whole railroad system of the Continent. It must have required an immense amount of labor to collect the information it contains, which, judging the whole by that portion relating to our Wisconsin Railroads, we should say, was correct and reliable. The map, which is to be printed in each number, is certainly the best we have ever seen, and will be alike valuable to travelers and railroad men.

THE RAILROAD CONVENTION IN NEW YORK.

The *Tribune* of Saturday furnishes the following report of the proceedings of the representatives of the five trunk lines who met in New York last week:

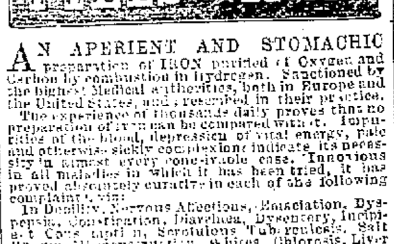

"The railroad representatives met yesterday morning at 9 o'clock, when the Committee reported that they were of the opinion that the rates for the carriage of freights could, with a proper regard to the public interest, be materially increased from the present standard, and that such increase should be made gradual in its operation, and commence from the present rates on and after the 15th of August next; also, that the five Eastern Trunk lines be empowered to make such arrangements and regulations, with the cooperation of connecting lines, as well as secure the changing of the rates from time to time.

To carry this into effect, the Committee recommend that a meeting be held once in each month, or oftener if required, at Buffalo and New York alternately, of the Presidents of the Companies, or their nominees to act in their places; and that no reductions from the rates established at these monthly meetings be permitted without the consent of four of the committee; one of three, provided that one of the three be a representative of one of the Southern lines. That the proposed Committee of the five Eastern Trunk lines be requested from time to time to make such regulations as they may find expedient to insure the carrying out of their decisions in regard to the through rates to be charged.

The committee also suggested that it be strongly urged upon the different lines carrying passengers between common points, to agree to the entire abolition of all agents, outside offices, payment of commissions, &c., as these are only useless expenses upon railway receipts.

That all the five Trunk lines, which it is suggested should every month settle the through rates, being new present their representatives be requested to meet at once, and decide on the rate to be put in force until the 1st of September next. The report was adopted. The meeting then adjourned."

Another meeting of the managers of the same lines is to be held at Saratoga Springs on the 27th instant, to adjust rates of freight for the coming season. The *Tribune* says there is perfect harmony upon passenger rates, and a good understanding will be had about freights.

AN APERIENT AND STOMACHIC preparation of IRON purified of Oxygen and Carbon by combustion in hydrogen. Sanctioned by the highest Medical authorities, both in Europe and the United States, and prescribed in their practice.

The experience of thousands daily proves that no preparation of Iron can be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. Innocuous in all maladies in which it has been tried, it has proved absolutely curative in each of the following complaints, viz:

In Debility, Nervous Affections, Emaciation, Dyspepsia, Constipation, Diarrhea, Dysentery, Incipient Consumption, Scrofulous Tuberculosis, Salt Rheum, Mismenstruation, Whites, Chlorosis, Liver Complaints, Chronic Headaches, Rheumatism, Intermittent Fevers, Pimples on the Face, &c.

In cases of General Debility, whether the result of acute disease or of the continued diminution of nervous and muscular energy from chronic complaints, one trial of this restorative has proved successful to an extent which no description nor written attestation would render credible. Invalids so long bed-ridden as to have become forgotten in their own neighborhoods, have suddenly re-appeared in the busy world as if just returned from protracted travel in a distant land. Some very signal instances of this kind are attested of female sufferers, emaciated victims of apparent marasmus, sanguineous exhaustion, critical changes, and that complication of nervous and dyspeptic aversion to air and exercise for which the physician has no name.

In Nervous Affections of all kinds, and for reasons familiar to medical men, the operation of this preparation of iron must necessarily be salutary, for, unlike the old oxides it is vigorously tonic, without being exciting and overheating; and gently, regularly aperient, even in the most obstinate cases of costiveness without ever being a gastric purgative, or inflicting a disagreeable sensation.

It is this latter property, among others, which makes it so remarkably effectual and permanent a remedy for Piles, upon which it also appears to exert a distinct and specific action, by dispersing the local tendency which forms them.

In Dyspepsia, innumerable as are its causes, a single box of these Chalybeate Pills has often sufficed for the most habitual cases, including the attendant Costiveness.

In unchecked Diarrhoea, even when advanced to Dysentery, confirmed, emaciating, and apparently malignant, the effects have been equally decisive and astonishing.

In the local pains, loss of flesh and strength, debilitating cough, and remittent hectic, which generally indicate Incipient Consumption, this remedy has allayed the alarm of friends and physicians, in several very gratifying and interesting instances.

In Scrofulous Tuberculosis, this medicated iron has had far more than the good effect of the most cautiously balanced preparations of iodine, without any of their well-known liabilities.

The attention of females cannot be too confidently invited to this remedy and restorative, in the cases peculiarly affecting them.

In Rheumatism, both chronic and inflammatory—in the latter, however, more decidedly—it has been invariably well reported, both as alleviating pain and reducing the swellings and stiffness of the joints and muscles.

In Intermittent Fevers it must necessarily be a great remedy and energetic restorative, and its progress in the new settlements of the West will probably be one of high renown and usefulness.

No remedy has ever been discovered in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.

Put up in neat flat metal boxes containing 50 pills, price 50 cents per box; for sale by Druggists and dealers. Will be sent free to any address on receipt of the price. All letters, orders, etc., should be addressed to
